

Supporting Information for:
**Dynamic spatiotemporal modeling of a habitat defining plant
species to support wildlife management at regional scales**

ANDREW T. TREDENNICK, THOMAS PREBYL, ADRIAN P. MONROE, JOHN LOMBARDI, AND CAMERON L. ALDRIDGE

Potential scale reduction factors

Potential scale reduction factors (\hat{R}) help diagnose MCMC convergence. MCMC algorithms have reached convergence when $\hat{R} < 1.1$.
